

Do you know about these 4 Fresh Features in your App & Portal?

1 SHAKE TO CALL

Who has time to search for pesky phone numbers?

With this cool feature, just go to the service you want to call and **shake** it (like a Polaroid picture)!

2 MY CARDS

Now you have an easy way to store and access all your health-related cards (pharmacy, fitness club, insurance)!

Click **My Profile** > **My Cards**

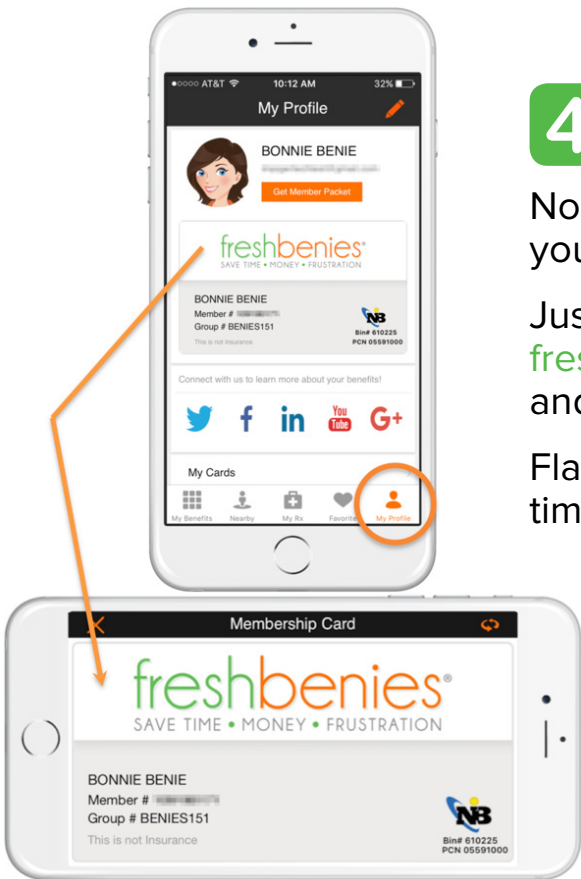

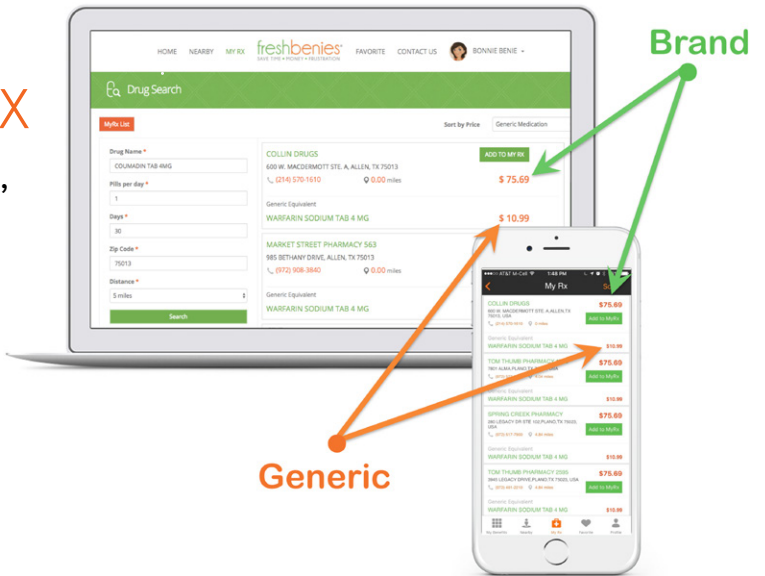

Then, just tap, snap and save!

3 SAVE ON YOUR Rx

Click **My Rx** in the app or portal to search, save and recheck pricing from all the participating pharmacies in your local area — on branded and generic drugs.

You might be surprised how much the price on your drug varies from one pharmacy to the next! The **freshbenies** price might even beat your insurance!

4 VIRTUAL CARD

No need to tote your freshbenies card in your wallet!

Just go the **My Profile** screen in your **freshbenies** app, tap the card to enlarge and tap again to flip it.

Flash your virtual card to save the next time you're at the pharmacy!
